Vetrix® BioSIS ECM

Vetrix® BioSIS ECM® Bioscaffold 7cm x 10cm:

One multilaminate Vetrix® BioSIS ECM Bioscaffold 7cm x 10cm
Applications: Vetrix® BioSIS ECM is for use as a surgical patch for soft tissue repair or reinforcement.

Multilaminate grafts are suitable for applications where high physical pressures or chemical effects of body fluids demand stronger structural support. Such indications include, but are not limited to, hernia repair, thoracic cage, muscular defects, and large skin lesions.

18 month shelf life.

Vetrix® BioSIS ECM® Bioscaffold 7cm x 10cm Single Ply:

One single laminate Vetrix® BioSIS ECM Bioscaffold 7cm x 10cm
Applications: Vetrix® BioSIS ECM is for use as a surgical patch for wound care, neurological grafting, soft tissue repair, or tissue reinforcement.

18 month shelf life.

Vetrix® BioSIS ECM® Bioscaffold 4cm x 7cm:

One multilaminate Vetrix® BioSIS ECM Bioscaffold 4cm x 7cm.
Applications: Vetrix® BioSIS ECM is for use as a surgical patch for soft tissue repair or reinforcement.

Multilaminate grafts are suitable for applications where high physical pressures or chemical effects of body fluids demand stronger structural support. Such indications include, but are not limited to, hernia repair, thoracic cage, muscular defects, and large skin lesions.

18 month shelf life.
